

Strengthening Second Chance Education Networks in Europe

S2CENE 1st Newsletter!

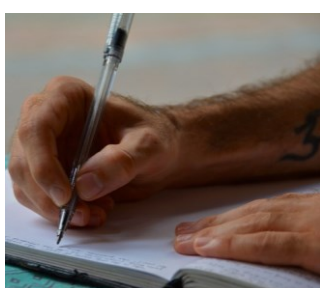

A word from our partners

Welcome to S2CENE project's newsletter! This publication will briefly summarize the progress made by our partners in opening Second Chance Education to the general audience, allowing you to discover not only our events and public documents, but also new ways to reach to Second Chance Schools Networks or what to follow if you are interested in the concept of second chance schools in adult education.

Our goal is merely to produce valuable content; therefore, we promise not to spam you with tons of emails. A new issue will be published, approximately, every three months from now on (or whenever new project milestones are achieved), guaranteeing that we have relevant information to present to you! If you cannot wait to the next issue, do not forget to visit our [site!](#)

Give us a chance, so that we can provide a second one to those who need it. The only way to improve is not leaving anyone behind!

Latest news
